GSES SUSTAINABLE PRODUCT FOOTPRINT

Hamamm Towel

●●●●○

Oxious has a wide range of high-quality hammam towels, made with a positive impact on people and the environment. For example, we developed our own hammam towels, which consist of 50% recycled materials. They are produced in our own production company in Turkey. We work with women there in a social context, where there is room for growth and development. Thanks to our production method, we achieved Sustainable A status. Oxious offers a representative business gift or unique promotional item for every company with a sustainable objective.

My Organization Team

You can now request a Token which you can give to your employees/colleague. With this Token they can register, join your organization and work along in your sustainability dashboard.

Manage & Work with your Team

As an organization you can request to generate a token, this token will be available in your settings here.

Once your organization-token is registered and available, you can give this token to employees/colleagues so they can register and connect to your organization as a teammember. Your employees/colleagues are registered, they will have the same membership and access to the same dashboard, they will also show up down here.

There is also an option to create Internal Teams, you can assign teammembers of your organization to specific teams for better communication.

Meta Standard

An international umbrella standard based on existing certificates and labels. Companies, brands, accommodations, and products can be rated based on the certificates and ecolabels that they already have achieved.

1. Register your Certificate
2. Select certificates for your validity check
3. Request validity check
4. After the validity check the points and certificates will appear on the rating card

Manage your Certificates on Organization Level

[New Certificate](#)

Info
You do not have any Certificates. You can add certificates to your organization and request validation too. You can do this [here](#).

You have no registered certificates, [register certificates now](#)

GSES Meta Standard

[Register Certificates](#)

Upload your certificates and get points on your rating card based on already achieved results.

Follow the next steps:

1. Register your Certificate
2. Select certificates for your validity check
3. Request validity check
4. After the validity check the points and certificates will appear on the rating card

Select the standards and/or certificates you want to verify.

Only the registered certificates will be available for selection.

1. The Process

2. Optimize your Rating

3. Verification Pricing

4. Extensive Explanation

5. Certificates & Ecolabels

The verifications are done by independent external parties, for more information and prices please contact us.

Welcome to the Corporate Social Responsibility assessment

The assessment contains 10 questions and all need to be filled in.

If you are not enabled to answer the question because it is not applicable.

Then please select the 'Not Applicable' option.

- Plan

1. In the policy plan, vision and/or on the website the organization explicitly focusses on:

- ☐ Identifying and involving the stakeholders (the people that are influenced and/or have influence on the policy and its execution) in their policy on sustainability, CSR and/or circular economy policy
- ☐ Continuously improving the sustainability of the business operations
- ☐ Innovation of the products and services aimed at sustainability and/or circularity
- ☐ Applying a life-cycle approach to get a picture of the total cost of usage and the impact of the products/services on people and the environment
- ☐ Communicating about sustainability, CSR and/or circular economy with the stakeholders
- ☐ Not Applicable

Extra Context (optional)

Company policy plan / webpage / stakeholder analysis

Compare, have insight and prepare your next steps to sustainability with top-notch dashboards including interactive charts and graphs.

Request Verification

All audits via the GSES System, including the Global Sustainable Enterprise Standard & the Sustainable Footprint Standard, are independently validated and audited to be able to guarantee the results of the outcome and to confirm sustainability claims.

Verification & Certification

Find the form at the bottom of the page

All audits via the GSES System, including the Global Sustainable Enterprise Standard & the Sustainable Footprint Standard, are independently validated and audited to be able to guarantee the results of the outcome and to confirm sustainability claims.

The independent validation policy of the GSES System and the steps towards certification are explained below:

Levels of Verification

1. Meta Standard	▼
2. Desk Audit	▼
3. External / Onsite Audit	▼
4. Fact Check by Laboratory	▼

Price Desk Audit

The GSES has a transparent pricing structure and aims to keep the validation costs low, in order to make its sustainability tools accessible to SMEs.

- € 250,- per GSES pillar / per location
- € 299,- per Sustainable Footprint Pillar (depending on the complexity of the product, project, or building)
- € 850,- BlueScan validation
- € 650,- Jumbo supplier scan

Price External / Onsite Audit

On request of the certification institution (CI) of your choice, the request is sent from the GSES Platform to available CIs.

* All prices excluding VAT. Prices may be subject to change
